

# Lighthouse Climb

Climb the historic Port Adelaide Lighthouse to get the best view in town!

1. Can you find the landmarks below?
2. Which of the landmarks would you say are 'historical' and which ones are 'new'?
3. Use a compass to find the direction that each landmark is from the lighthouse.
4. Check each answer with your teacher.

## S.T. Fearless

*S.T. Fearless* was a working steam tug. It was built in Canada during World War II. Tugs are the workhorses of any Port. Their job is to come alongside ships and push and nudge the ships to berth at the wharf. In the tug's latter days it worked on the Brisbane River. Many people worked together to float it ashore.

## Old Wool Stores

Alexander Lang Elder built these buildings to store wool. The wool was sold at auction and sent to England.

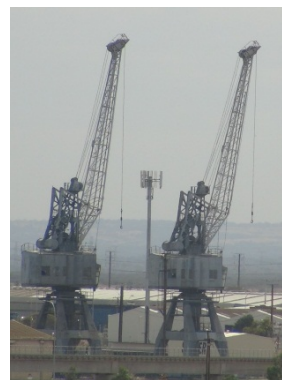

## Old Customs House

The old customs house was built in 1879. Customs are responsible for checking that the goods brought into Australia are safe and legal.

## Harts Mill

This is the old flour mill built by Captain John Hart. It opened in 1855 and employed 30 workers, many of whom were Aboriginal.

## Cranes

Cranes are used to load and unload heavy cargo onto ships.

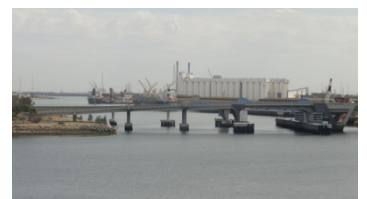

## Silent Cop

This was used in Port Adelaide to direct traffic before traffic lights.
