

Work in a group of 4 to use the placemat to explore an item from the wrecked exhibition.

Place an item from the shipwreck in the circle in the centre of your page. Each member of your group selects a quadrant to write their thoughts and ideas about what the item is, what you wonder about it, ask questions, what it reminds you of. Share your ideas with the rest of your group and develop some agreements about the item. Share these with the rest of the class.

After identifying all of the items, can you work out the type of vessel these items came from?

A large diagram for a group activity. It features a central circle divided into four quadrants by a vertical and a horizontal line. The entire diagram is enclosed in a rectangular border.
